

WE HAVE EXCITING NEWS!

Dear Valued Patients and Friends,

At Austin Plastic Surgeon, we strive to always be at the forefront of innovation, working to bring you the latest and most effective treatments to enhance your beauty and well-being.

We are thrilled to introduce Alloclae, our newest offering that is set to revolutionize aesthetic and medical treatments.

WHAT IS ALLOCLAE?

Alloclae is a cutting-edge technology designed to provide advanced, non-invasive treatments for a variety of cosmetic needs. This state-of-the-art procedure delivers remarkable results with minimal discomfort and downtime.

This groundbreaking injectable utilizes purified fat derived from donor tissue that has undergone meticulous processing to ensure safety and effectiveness. This process preserves the honeycomb structure of the fat while removing impurities.

Alloclae is ideal for patients looking to add volume to specific areas of their body, particularly if you have experienced volume loss due to aging, weight changes, or simply want a more sculpted look.

Additionally, Alloclae can be combined with Aveli to reduce the appearance of cellulite by targeting and releasing the connective bands responsible for its formation. Unique in the market, Alloclae is the first large-volume filler available in the United States, providing more opportunities for meaningful enhancements and achieving a natural, rounded, and smooth appearance.

BENEFITS OF ALLOCLAE

AUSTIN
PLASTIC
SURGEON

- **Alloclae is Non-Invasive:** Experience the benefits of cosmetic enhancement without the downtime of surgery.
- **Targeted Treatment:** Precision technology ensures that the treatment is focused exactly where you need it.
- **Minimal Downtime:** Most patients can return to their daily activities immediately after treatment.
- **Versatility:** Alloclae addresses a wide range of concerns, making it a suitable option for various aesthetic goals.
- **No Need for Excess Body Fat:** Unlike traditional fat transfer methods, Alloclae allows you to achieve desired volume and contour even if you don't have enough of your own fat to transfer.
- **Skin Rejuvenation:** Improve skin texture, reduce wrinkles, and enhance overall skin tone.
- **Body Contouring:** Achieve a more sculpted physique with non-surgical body contouring solutions.
- **Cellulite Reduction:** Smooth out the appearance of cellulite for a more even skin surface.

WHO IS THE RIGHT CANDIDATE?

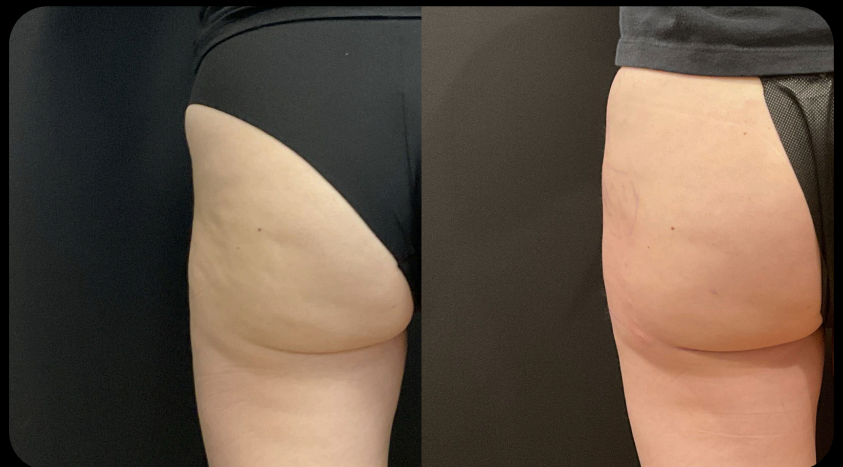

Alloclae is ideal for individuals seeking effective, non-invasive solutions for their aesthetic concerns. It is suitable for various skin types and can be tailored to meet specific goals.

Whether you're looking to rejuvenate your skin or contour your body, Alloclae might be the perfect option for you.

If you're interested in learning more about Alloclae and how it can help you achieve your beauty and wellness goals, we invite you to schedule a consultation with our team. Our experts will be happy to assess your needs and determine if Alloclae is the right choice for you.

Thank you for being a valued part of the Austin Plastic Surgeon community. We look forward to helping you explore the exciting possibilities with Alloclae!

Warm regards,
The Team at
